France, Emirates, etc. were quick to see the operational advantages but overall progress has been disappointing.

Air Cargo Management - Taylor & Francis

The IATA Air Cargo Carbon Footprint (ACCF) working group has developed the Recommended Practice 1678 for CO2 Emissions Measurement Methodology, which establishes a methodology to measure the CO2 emissions generated by air cargo at shipment level. Air cargo already compares well with alternative methods of transport in this respect, and represents just 2% of global carbon emissions, around half the level produced by maritime shipping.

Acumen Air Cargo is a fully IATA/BIFA accredited forwarder with overseas partners on nearly all continents allowing us offer customs clearance and delivered to door services to all major worldwide gateways and some more obscure destinations that other forwarders cannot offer.

Acumen Air Cargo □ Freight Forwarding

Download Ebook Air Cargo Management Air Freight And The Global Supply Chain

The air cargo sector has retained 92% of its business while almost 90% of passenger demand has evaporated because of travel fears and government restrictions. Further improvement in cargo volumes could be capped by the shortage in passenger airlift, despite carriers deploying more dedicated cargo aircraft.
