Aircraft Engine Maintenance and Operation Both maintenance and complete engine overhauls are performed normally at specified intervals. This interval is usually governed by the number of hours the powerplant has been in operation. The actual overhaul period for a specific engine is generally determined by the manufacturer's recommendations.

Aircraft Engine Maintenance and Operation | Aircraft Systems

An aircraft engine maintenance event is one of the most expensive aspects to owning a business aircraft. It's possible to keep the costs predictable. Aircraft owners can enrol their aircraft on an hourly maintenance program - either with the engine manufacturer, or from a third-party program provider.

Aircraft Engine Maintenance | AvBuyer

A secondary, but important reason for performing maintenance on jet engines at specified periodic intervals also exists. This is to ensure that all the rotating
