My 2 1/2 year old twins have recently become interested in tractors so I bought this book so they could learn more about them. The book is nice because it has just a couple sentences and something for kids to feel on each page. The textures don't feel real accurate but my kids enjoy touching them regardless.

It's a great book because it's colorful
and every page has a tractor on it.
However, the touch and feel part
doesn't have much. It's all very
smooth. There are a couple that are
really good, but the rest of the pages
are simple and can't tell that it's a
touch and feel book.
