Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged

citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

What are the First Amendment rights? How do you resolve questions about the rights of students, educators, and parents in a school setting? The First Amendment to the U.S. Constitution protects the most basic and cherished rights of society--religion, speech, press, petition, and assembly. Anyone who wants to know more about those freedoms in the context of schools will find *The First Amendment in Schools* a rich resource for study and application. The book includes \*

- \* An explanation of the origins of the First Amendment
- \* A concise, chronological history of 50 legal cases, including many landmark decisions, involving the First Amendment in public schools
- \* Answers to frequently asked questions about the practice of the First Amendment in schools, covering specific issues of religious liberty, free speech, and press as they affect school prayer, use of school facilities, dress and speech codes, student press, book selection, and curriculum
- \* General information on First Amendment expression and practice in schools
- \* Information on more than 60 educational and advocacy programs and organizations for First Amendment resources
- \* A profile of First Amendment Schools

This book provides a civic and legal framework for giving all members of

the school community--students, parents, teachers, administrators, and community members--a real voice in shaping the life of the school. Note: This product listing is for the reflowable (ePub) version of the book.

As the Supreme Court has recognized, social media sites like Facebook and Twitter have become important venues for users to exercise free speech rights protected under the First Amendment. Commentators and legislators, however, have questioned whether these social media platforms are living up to their reputation as digital public forums. Some have expressed concern that these sites are not doing enough to counter violent or false speech. At the same time, many argue that the platforms are unfairly banning and restricting access to potentially valuable speech. Currently, federal law does not offer much recourse for social media users who seek to challenge a social media provider's decision about whether and how to present a user's content. Lawsuits predicated on these sites' decisions to host or remove content have been largely unsuccessful, facing at least two significant barriers under existing federal law. First, while individuals have sometimes alleged that these companies violated their free speech rights by discriminating against users' content, courts have held that the First Amendment, which

### Constitutional Freedoms Answers

provides protection against state action, is not implicated by the actions of these private companies. Second, courts have concluded that many non-constitutional claims are barred by Section 230 of the Communications Decency Act, 47 U.S.C. § 230, which provides immunity to providers of interactive computer services, including social media providers, both for certain decisions to host content created by others and for actions taken "voluntarily" and "in good faith" to restrict access to "objectionable" material. Some have argued that Congress should step in to regulate social media sites. Government action regulating internet content would constitute state action that may implicate the First Amendment. In particular, social media providers may argue that government regulations impermissibly infringe on the providers' own constitutional free speech rights. Legal commentators have argued that when social media platforms decide whether and how to post users' content, these publication decisions are themselves protected under the First Amendment. There are few court decisions evaluating whether a social media site, by virtue of publishing, organizing, or even editing protected speech, is itself exercising free speech rights. Consequently, commentators have largely analyzed the question of whether the First Amendment protects a social media site's publication decisions by analogy to other

### Constitutional Freedoms Answers

types of First Amendment cases. There are at least three possible frameworks for analyzing governmental restrictions on social media sites' ability to moderate user content. Which of these three frameworks applies will depend largely on the particular action being regulated. Under existing law, social media platforms may be more likely to receive First Amendment protection when they exercise more editorial discretion in presenting user-generated content, rather than if they neutrally transmit all such content. In addition, certain types of speech receive less protection under the First Amendment. Courts may be more likely to uphold regulations targeting certain disfavored categories of speech such as obscenity or speech inciting violence. Finally, if a law targets a social media site's conduct rather than speech, it may not trigger the protections of the First Amendment at all.

More than any other people on earth, we Americans are free to say and write what we think. The press can air the secrets of government, the corporate boardroom, or the bedroom with little fear of punishment or penalty. This extraordinary freedom results not from America's culture of tolerance, but from fourteen words in the constitution: the free expression clauses of the First Amendment. In *Freedom for the Thought That We Hate*, two-time Pulitzer Prize-winner Anthony Lewis describes how our free-speech rights

were created in five distinct areas - political speech, artistic expression, libel, commercial speech, and unusual forms of expression such as T-shirts and campaign spending. It is a story of hard choices, heroic judges, and the fascinating and eccentric defendants who forced the legal system to come face to face with one of America's great founding ideas.

The Malawi Sustainable Development Network Programme (SDNP) presents the full text of the constitution of the Republic of Malawi, a country in southern Africa.

"This publication is designed to assist United Nations staff who provide human rights advice to States, which undertake to amend an existing constitution or write a new one. It should also be of use to States that undertake constitutional reform, including political leaders, policymakers, legislators and those entrusted to draft constitutional amendments or a new constitution. Further this publication should also facilitate advocacy efforts by civil society to ensure that human rights are properly reflected in constitutional amendments or new constitutions. Finally, this publication, along with the international human rights instruments, should not only provide a standard to measure whether constitutional amendments or a new constitution has appropriately reflected human rights and

fundamental freedoms, but also assist in evaluating whether the processes used in constitutional reform are consistent with international procedural norms"--Introduction, page 1.

For more than 200 years, the Constitution of the United States has been a "working" document, maintaining the original principles upon which our nation was founded while, at the same time, changing with the country, as reflected in its amendments. While the U.S. Constitution itself outlines the basic structure of the federal government, its twenty-seven amendments address many subjects but primarily focus on the rights of individual American citizens. This booklet outlines those rights, offering historical context and other information that is both interesting and informative. The continued vitality of our democracy is dependent upon an informed citizenry. Understanding the history of the Constitution and its amendments will assist all of us in more fully appreciating these rights and responsibilities as they have evolved over time. Moreover, such understanding will ensure that these rights will continue to be exercised, valued, and cherished by future generations.

Detailed yet highly readable, this book explores essential and illuminating primary source documents that provide insights into

the history, development, and current conceptions of the First Amendment to the Constitution. • Provides readers with accessible explanations of key points in many seminal Supreme Court cases, thereby enabling a better appreciation of specific developments in freedom of speech in the United States • Explains confusing legal terms and phrases in plain English for nonspecialist readers • Offers easy-to-follow explanations from a noted First Amendment scholar and authority who has been explaining and teaching First Amendment topics for two decades

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered

process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.
