straightforward, authoritative and practice-based guide to women's reproductive health.

This time honoured classic has been re-built completely: after six editions the editor has decided that a radical revision is necessary. The new edition has been developed as a result of intensive consultation with trainees in OB/GYN as to what they want, what they need and how they learn. The book is organised into two halves covering obstetrics and gynaecology. Within each, the chapters are structured into sections containing pedagogic features such as boxes, highlights and key points for the first time. It contains everything the clinician needs to practice the art of obstetrics and gynaecology and sufficient information to help sub-

As a result of the accelerating pace with which new knowledge is gathered and new developments are brought into practical use, it is essential that the specialist keeps abreast of current trends. The new Sixth Edition of this highly-acclaimed and well-established text has been extensively revised and updated to provide the postgraduate studying for the MRCOG examination with the most up-to-date information available. Under the expert supervision of a new editor, Mr Keith Edmonds, the book has been comprehensively revised and given a completely new look with the addition, for the first time, of colour illustrations and two-colour text. There are also five new chapters. The thorough reworking of all chapters and the contributions of many newly emerging experts in their
