When March 25th pops up on the calendar for Everton, it isn't exactly a date to remember. On this day in history, the Toffees have won just 4 of their 19 matches. Included in those nineteen are the following three Cup games, all either semi-finals or Finals, so today let's take a look at how some of those shaped Everton history as we know it.

a successful competitor of the normal (or Cramér's), diffusion, and Teugels' approximations, being a breakthrough in its conditions and accuracy. Since such approximations underlie numerous applications in risk theory, queueing theory, reliability theory, and mathematical theory of dams and inventories, this book is of interest not only to professional mathematicians, but also to physicists, engineers, and economists. People from industry, with a theoretical background in level-crossing problems, e.g., from the insurance industry, can also benefit
