The Quick and Dirty Guide to " get iplayer "
get_iplayer has to update its list of these before it can match your search query to them. You can effectively ignore this text. To search for something more useful, we could type: get_iplayer "Top Gear" This returns the following... HINT - Notice how get_iplayer doesn't have to refresh the available streams? This is because it did it in the last command. get_iplayer will remember the list for 4 hours, and then update the list if a new search is performed after this 4 hour time limit.

get_iplayer --pvr-del="name of PVR from list" To remove the "Top_Gear" PVR record from the list above, I'd simply use this code: get_iplayer --pvr-del=Top_Gear It's as easy as that. Run that command with the exact name of the PVR record in place of "name of PVR from list" and it will be removed immediately.
