~~Making Friends with the Menopause: A clear and comforting ...~~

Whether you're worried about feeling invisible, weight gain or loss of fertility, or simply want to take care of yourself well, knowledge is power, and Making Friends with the Menopause will give you a greater understanding of the process, so you can enjoy your body and your sexuality as you age.

~~Making Friends with the Menopause: A clear and comforting ...~~

Written with warmth and humour, Making Friends with the Menopause examines why stopping menstruating has such profound hormonal shifts in the body, leading us to react in a myriad of ways physically and mentally. It gives practical advice on hot flushes and night sweats, anxiety and mood swings, muscular aches and loss of libido, early onset menopause, hysterectomy and more, plus an overview of each stage of the process so you'll know what to expect in the years before, during and after.

The menopause is a natural part of ageing that usually occurs between 45 and 55 years of age, as a woman's oestrogen levels decline. In the UK, the average age for a woman to reach the menopause is 51. But around 1 in 100 women experience the menopause before 40 years of age. This is known as premature menopause or premature ovarian insufficiency.

It can also be other menopausal friends, and this is something that does come up. If your other friends who're going through the menopause have maybe not had such a toughest time that you have, then again, they may be less supportive of you. We've had some women who've had friends saying, you know, "What on earth is wrong with you? Just get a grip.

~~Does menopause affect friendships? | A.Vogel Talks Menopause~~

My experience of the menopause may have been sudden and unexpected but I believe it's a fair reflection of what many women go through. It's not exactly a taboo subject but it is something that women don't always feel comfortable talking about, and certainly not a lot of men.

~~Dealing with the menopause... - Slugger O'Toole~~

Complementary and alternative treatments, such as herbal remedies and bioidentical ("natural") hormones, aren't recommended for symptoms of the menopause, because it's generally unclear how safe and effective they are. Some remedies can also interact with other medications and cause side effects.

~~Menopause - Treatment - NHS~~

Menopause begins in the late 40s or early 50s for most women. It usually lasts for a few years. During this time, at least two-thirds of women experience symptoms of menopause ().These include hot ...

Next week's column is all about how to make friends with your menopause, take control of your symptoms and start living your life to the full. The menopause is a natural process in a woman's life and NOT an illness! Unfortunately some women experience unpleasant symptoms that can make them feel rather unwell. But there are many things that we can do naturally to allow our bodies transition through this time of the life in a more gentle and healthy way.
