This blog series is just more evidence that the microfinance industry is currently united around a common concern: avoiding over-indebtedness. Whether to protect the social impact on customers or the institutional viability of MFIs, over-indebtedness is crucial to all parties involved. Still the most fundamental questions on over-indebtedness remain unanswered – in his recent post Rich Rosenberg says “ we ’ re flying blind. ” .

In the microfinance industry, high default rates are often associated with over-indebtedness. It is now widely acknowledged that excellent repayment rates may result from pressure placed on borrowers as much as client satisfaction or well-being. Conversely, field realities indicate that late payment is not necessarily a sign of over-indebtedness.

During my undergraduate studies at the University of Aberdeen I explored several different aspects of inequality including debt and over-indebtedness. I chose to look at the Wealth and Asset Survey (WAS) as a case study to gain a deeper understanding of not just how many households were affected by over-indebtedness in the UK, but the age, life stage, and geographical area of those affected.
