Learn to prioritize patient care quickly and effectively! *Conceptual Care Mapping: Case Studies for Improving Communication, Collaboration, and Care* uses a 'two books in one' approach to guide you through the most important aspects of patient care and critical thinking. The first section explores the title's three C's of care, communication, and collaboration within the healthcare team. The second section includes case studies that progress from simple clinical conditions to the more complex. *Conceptual Care Mapping* provides the tools you need to understand and implement effective patient care plans. With mapping practice both online and in the text, this unique book is the ideal resource for any first-year nursing student! Unique! *Conceptual Care Mapping* guides your care — using templates and an online, interactive conceptual care map creator — from the author team who developed this new method of organizing care information. Unique! 30 case studies focus on the patients you are most likely to see in clinical experience as a first-year student — and are organized from simple to complex, guiding you through prioritization and teaching you to think critically. Unique! Elsevier's *Conceptual Care Map (CCM)* creator helps you create, update, manage, and submit care maps quickly and effectively. Unique! Answers and completed care maps are provided for selected cases to reinforce what you've learned. Unique! *Improving Patient Care* section not only provides an overview of care mapping, but also focuses on three key elements of patient care: care, communication (both with other healthcare professionals and with patients), and collaboration. Unique! *Interprofessional Education (IPE)* and collaboration are key elements in all of the case studies, helping you understand how you will work within the larger healthcare team. Full-color design makes it easier to match up your online care mapping with content in the text.

A stunning actress-model disappears without a word...A frantic search ends in tragedy...A slick photographer accused of her murder... It seemed as if all of Linda Sobek's dreams of stardom were coming true. But on the day the sexy calendar model and former NFL cheerleader missed a fitting for her first TV role, her family knew something terrible had happened to their golden girl. For eight days, police held out little hope of finding the 27-year-old beauty alive. Then the crucial clues came: photographs of Linda along with a crumpled page from her appointment book were discovered in a highway dumpster. Hours later, they were led to Linda's shallow grave deep in California's Angeles Forest. The clues near the crime scene linked the murder to Charles Rathbun, a talented, sought-after commercial photographer, who claimed he'd accidentally run Linda over in a car during a photo shoot. Police speculated that Linda may not have been the first pretty woman the strapping Rathbun had taken into Angeles Forest who didn't come out alive. But he has not been charged in any of those cases. Clifford L. Linedecker's *Death of a Model* tells the heartbreaking story of a promising young star.
