Pdg Solar Charging Of Batteries Guide

There are four stages to your battery charging. Bulk – is typically the first stage of charging. Bulk begins when the sun comes out or the generator turns on. This stage occurs when the batteries

Download

Ebook Pdg

are at a lower state-of-charge, generally anything less than 80% full. The Bulk stage basically allows the solar panel or generator to put as much amperage into the batteries as possible. As the batteries collect electricity, the voltage will slowly rise over time.
