Biblical criticism was the practice of critical analysis of the Bible that began in the eighteenth century and ended in the twentieth. It was based on two distinguishing perspectives: the scientific concern to avoid dogma and bias by applying a neutral, non-sectarian, reason-based judgment to the study of the Bible, and the belief that reconstructing Bible history would lead to a correct ...

The source of oppression and the resistance to it have a common root on Spinoza's account, namely, ambition, or the desire for others to approve of the same things that we do (see EIIP29; cf. Rosenthal 2001 and 2003). Men being constituted as they are, when differences of opinion arise¶as they inevitably do¶they are inclined to foist their standard on others and to resist others's¶ attempts to do the same.
