The Southern Reach Trilogy is a book series written by Jeff VanderMeer. The Southern Reach is a secret government agency responsible for investigating and hiding the existence of Area X, a remote region of swamps and coastline which was one day surrounded by an invisible and nearly impenetrable barrier.

The Southern Reach Trilogy (Literature) - TV Tropes

Jeff VanderMeer's Southern Reach trilogy comes to an end with Acceptance; reviewer Jason Sheehan says it's a maddening, fascinating read that will stay with you long after you finish the last page.

Annihilation is the first volume in Jeff VanderMeer's Southern Reach trilogy, Authority is the second, and Acceptance is the third. Area X—a remote and lush terrain—has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. This is the twelfth expedition. Their group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all their observations, scientific and otherwise, of their surroundings and of one another; and, above all, to avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them, and the secrets the expedition members are keeping from one another, that change everything. After the disastrous twelfth expedition chronicled in Annihilation, the Southern Reach—the secret agency that monitors these expeditions—is in disarray. In Authority, John Rodriguez, aka “Control,” is the team's newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. And the consequences will spread much further than that. It is winter in Area X in Acceptance. A new team embarks across the border on a mission to find a member of a previous expedition who may have been left behind. As they press deeper into the unknown—navigating new terrain and new challenges—the threat to the outside world becomes more daunting. The mysteries of Area X may have been solved, but their consequences and implications are no less profound—or terrifying.

It is winter in Area X, the mysterious wilderness that has defied explanation for thirty years, rebuffing expedition after expedition, refusing to reveal its secrets. As Area X expands, the agency tasked with investigating and overseeing it—the Southern Reach—has collapsed on itself in confusion. Now one last, desperate team crosses the border, determined to reach a remote island that may hold the answers they've been seeking. If they fail, the outer world is in peril. Meanwhile, Acceptance tunnels ever deeper into the circumstances surrounding the creation of Area X—what initiated this unnatural upheaval? Among the many who have tried, who has gotten close to understanding Area X—and who may have been corrupted by it? In this last installment of Jeff VanderMeer's Southern Reach trilogy, the mysteries of Area X may be solved, but their consequences and implications are no less profound—or terrifying.

The Southern Reach Trilogy begins with this Nebula Award-winning novel that "reads as if Verne or Wellsian adventurers exploring a mysterious island had warped through into a Kafkaesque nightmare world" (Kim Stanley Robinson). Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as shadows of their former selves, and within weeks, all had died of cancer. In

Annihilation, the first volume of Jeff VanderMeer's Southern Reach trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one another that change everything.

The much anticipated second instalment in VanderMeer's Southern Reach trilogy In Annihilation, Jeff VanderMeer introduced the mysteries of Area X—a remote and lush terrain mysteriously sequestered from civilization. It was the first volume of a projected trilogy; well in advance of publication, translation rights had sold all around the world, and a major movie deal had been struck. Just months later, the second volume is here. For thirty years, the only human engagement with Area X has taken the form of a series of expeditions monitored by a secret agency called the Southern Reach. After the disastrous twelfth expedition chronicled in Annihilation, the Southern Reach is in disarray, and John Rodriguez (a.k.a. "Control") is the team's newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. And the consequences will reach much farther than that. The Southern Reach trilogy will conclude in fall 2014 with Acceptance.

Describes the 12th expedition to "Area X," a region cut off from the continent for decades, by a group of intrepid women scientists who try to ignore the high mortality rates of those on the previous 11 missions. Original. 75,000 first printing.

It is winter in Area X. A new team embarks across the border, on a mission to find a member of a previous expedition who may have been left behind. As they press deeper into the unknown, navigating new terrain and new challenges, the threat to the outside world becomes only more daunting.

John Rodriguez, the new head of a secret agency tasked to monitor Area X—a lush and remote terrain mysteriously sequestered from civilization—is faced with disturbing truths about himself and the agency he has sworn to serve when the secrets of Area X begin to reveal themselves. Original. 50,000 first printing.

Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization, and the government is involved in sending secret missions to explore Area X. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. Annihilation opens with the twelfth expedition. The group is composed of four women, including our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all of their observations, scientific and otherwise; and, above all, to avoid succumbing to the unpredictable effects of Area X itself. What they discover shocks them: first, a massive topographic anomaly that does not appear on any map; and second, life forms beyond anything they're equipped to understand. But it's the surprises that came across the border with them that change everything—the secrets of the expedition members themselves, including our narrator. What do they really know about Area X—and each other?

From Lovecraft to Borges to Gaiman, a century of intrepid literary experimentation has created a corpus of dark and strange stories that transcend all known genre boundaries. Together these stories form The Weird, and its practitioners include some of the greatest names in twentieth and twenty-first century literature. Exotic and esoteric, The Weird plunges you into dark domains and brings you face to face with surreal monstrosities. You won't find any elves or wizards here...but you will find the biggest, boldest, and downright most peculiar stories from the last hundred years bound together in the biggest Weird collection ever assembled. The Weird features 110 stories by an all-star cast, from literary legends to international bestsellers to Booker Prize winners: including William Gibson, George R. R. Martin, Stephen King, Angela Carter, Kelly Link, Franz Kafka, China Miéville, Clive Barker, Haruki Murakami, M. R. James, Neil Gaiman, Mervyn Peake, and Michael Chabon. The Weird is the winner of the 2012 World Fantasy Award for Best Anthology. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Named one of the most anticipated books of 2017 by The New York Times, The Huffington Post, Book Riot, Chicago Reader, The Week, and Publishers Weekly. "Am I a person?" Borne asked me. "Yes, you are a person," I told him. "But like a person, you can be a weapon, too." In Borne, a young woman named Rachel survives as a scavenger in a ruined city half destroyed by drought and conflict. The city is dangerous, littered with discarded experiments from the Company—a biotech firm now derelict—and punished by the unpredictable predations of a giant bear. Rachel ekes out an existence in the shelter of a run-down sanctuary she shares with her partner, Wick, who deals his own homegrown psychoactive biotech. One day, Rachel finds Borne during a scavenging mission and takes him home. Borne as salvage is little more than a green lump—plant or animal?—but exudes a strange charisma. Borne reminds Rachel of the marine life from the island nation of her birth, now lost to rising seas. There is an attachment she resents: in this world any weakness can kill you. Yet, against her instincts—and definitely against Wick's wishes—Rachel keeps Borne. She cannot help herself. Borne, learning to speak, learning about the world, is fun to be with, and in a world so broken that innocence is a precious thing. For Borne makes Rachel see beauty in the desolation around her. She begins to feel a protectiveness she can ill afford. "He was born, but I had borne him." But as Borne grows, he begins to threaten the balance of power in the city and to put the security of her sanctuary with Wick at risk. For the Company, it seems, may not be truly dead, and new enemies are creeping in. What Borne will lay bare to Rachel as he changes is how precarious her existence has been, and how dependent on subterfuge and secrets. In the aftermath, nothing may ever be the same.
